

eGroup operates out of an 16-acre facility at the Midmill industrial estate in Kintore, boasting an array of specialist services. eGroup is a £21 million turnover operation and the largest Company of its type in Scotland, including, but not limited to: structural steel fabrication & erection; surface preparation; specialist protective coatings; NDT; hydro testing; passive fire protection; chartek & TSA application; and erection wall & roof cladding. Our integrated service provision and in-house site teams aim to ensure our clients projects are optimised, and cost and time reduced by reducing the number subcontractors required. Servicing both the construction industry and the oil & gas sector, eGroup is driven to best meeting the needs of our clients in the safest, most efficient and responsible manner.

eGroup recognise the importance of Health, Safety, Environmental and Quality (HSEQ) considerations within our services and activities that potentially have an impact on:

- The scope of supply to our client base
- Our workers and business practices
- Our surroundings and the environments in which we operate

eGroup acknowledges its requirements to demonstrate commitment to this Policy by encouraging proactivity and protecting all workers and the environment affected by our activities and undertakings. eGroup will promote and communicate this Policy to all personnel and interested parties, and will review this Policy on a regular basis to ensure it remains appropriate to the nature and scale of our activities.

Plans and objectives, appropriate to the context of our activities, are established and implemented, while review of business performance occurs at regular intervals.

eGroup understands the expectations and requirements outlined in legislation as well as industry guidance and best practice relevant to the sectors in which our clients are involved. The Board of Management (BOM) are accountable for the implementation of this Policy and management of HSEQ on a day-to-day basis.

The BOM will ensure the business:

- Has processes in place that control business risks arising from its undertakings
- Commits and provides adequate resources to the continual improvement of the Management System and HSEQ performance
- Commits to the consultation and participation of workers on matters affecting HSEQ
- Provides safe and healthy working conditions for the prevention of work-related injury and ill-health
- Commits to eliminate hazards, where practical, and reduce risks
- Provides suitable and sufficient information, instruction, training and supervision for workers to be competent to fulfil their tasks
- Complies with and satisfies all applicable legal and other requirements to which it subscribes, and commits to fulfil its compliance obligations
- Recognises the responsibility to manage environmental impacts of services and products, and has assessed its activities and identified significant environmental aspects and impacts
- Commits to protecting the environment

Further information with regards to responsibilities and arrangements for HSEQ are detailed within specific procedures and documentation within the Management System.
